THE COMFORT HOMES SYSTEM

Full Control Over Your Building Project

Being your own general contractor means that you get to manage the project yourself and have full control of your build. You make all the calls about your lot, lot works, foundation, mechanicals etc. so you can truly create the home YOU want.

Create Value and Save Money

By putting sweat equity into your build, you are able to truly add value to your new home! Even by simply managing your project, you can save 15% to 20%. The more you do, the more you save!

Customize Your Home's Finishing Touches

By taking a hands on approach to your home, you can truly customize the aspects that you care about. You are able to add handpicked finishing touches to your home to truly create a home that you love and will suit your family for years to come.

Price Protection

You have the amazing advantage of knowing the cost of the largest part of your project upfront! This is one of the largest and most unique advantages of the Comfort Homes system. You also get more protection from price inflations than you would get with more traditional building methods.
